EXPERIENCE

Frontend Intern

Interia.pl Group (07.2018 – 09.2018)

- implementing an analytics dashboard (React, Redux, Less)

Junior Frontend Developer

Interia.pl Group (10.2018 – 07.2019)

- implementing a new "sign in" page for webmail – konto-pocztowe.interia.pl (React, Less)
- introducing A/B tests to projects
- maintaining a webmail – fixing bugs, introducing new features, releasing new versions (PHP, AngularJS 1.7, vanilla JS)

Regular Frontend Developer

Interia.pl Group (08.2019 – 03.2020)

- implementing a new "log in" page for webmail – poczta.interia.pl (React, Less)
- maintaining a webmail – fixing bugs, introducing new features, releasing new versions (PHP, AngularJS 1.7, vanilla JS)
- implementing a new version of webmail (AngularJS 1.7, SASS)

Software Engineer

Qualtrics (04.2020 – NOW)

- designing frontend solutions for web apps (React, AngularJS, CSS-in-JS, Redux, Hooks)
- implementing integration and unit tests (Cypress, Jest, Karma, React Testing Library)
- mentoring other teammates in frontend technologies and accessibility
- taking part in an on-call rotation of the most essential parts of the system (Distributions Team)
- interviewing regular employees and frontend contractors
- maintaining frontend and backend services (TypeScript, AngularJS, React, Redux, RxJS, Kotlin, Java, NodeJS – Express/Hapi)
- cooperating with a manager in setting up a new team – introduced a KTLO rotation (described responsibilities, created runbooks and JIRA dashboards)
- leading a team of 5 software engineers
